# Knowledgewell Deployment - Thursday 30th August 2018
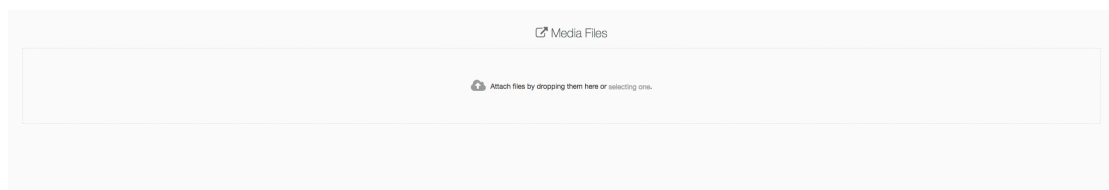

2018-08-27 - Shaun Gray - KNOWLEDGEWELL

KNOWLEDGEWELL - **DIGITAL ASSET MANAGEMENT**
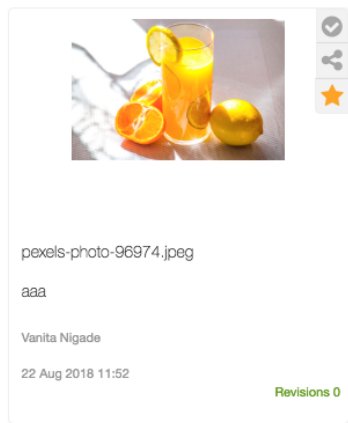

1. File type restrictions - JPG and MP4 have been removed from 'Document Upload' presets.

2. Drag and Drop upload - User interface has been increased in size to allow greater drop area zone across the entire application.

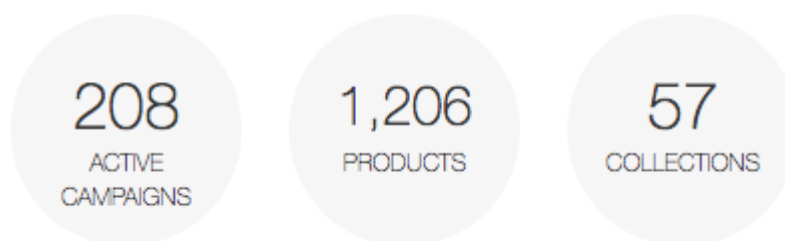

3. Selection Icons - User interface has been updated to increase the icons presented to users in all 'thumbnail' views.

Revisions 0

4. List view selection - User interface has been updated to allow a user to select, individual items throughout the entire application.

Media

	Code	Description
☐		pexels-photo-96974
☑		dessert-352475__480
☑		pexels-photo-96974
☐		pexels-photo-165985

5. Home screen, Stories / Collections - User interface has been updated to now include navigation from home screen to direct users to stories and/or collections.

208 ACTIVE CAMPAIGNS

1,206 PRODUCTS

57 COLLECTIONS

6. Stories/Collection name - Extending the character limit and new user hover function to display full name.

7. Gifting Import / Export - Batch control of the gifting process.

KNOWLEDGEWELL - DIGITAL ASSET MANAGEMENT (Fixes)

1. My Downloads History - Sorting of Date and Time list view.

2. Product Media Assignment - The application will not allow for the same media to be assigned to a product.

3. Basic Search Media - Changes have been made to give a more consistent result when including file extensions.

4. Email Service - Email notification service updated.

5. Media Assignment to Product - Navigation after assigning media to a product on saving will now hold the currently viewed page (tab).

6. Ticketing - Fix mismatch between stock and in stock filter.

KNOWLEDGEWELL - **Local Area Marketing (Fixes)**

1. Campaign/Sub Campaign results - Change results from 10 viewable items to 50 viewable items, in thumbnail view and tree view.

2. DAM Asset Information - Extend display of information to users for both media and products.

3. Reporting - Enhance export template data from reports.

4. Templates not displaying - Fix to make sure templates display correctly for stores and users.
